REMARKS

This application is a divisional of application serial No. 07/773,236 filed October 9, 1991, which is currently pending. Claims 1-22 presented in this application were previously withdrawn from prosecution in the '236 application as a result of a restriction requirement entered in that case. Claims 23-34 of the '236 application are currently on appeal, and so are not presented in this application. Claims 35-36 of the '236 application were also previously withdrawn from prosecution in the '236 application as a result of a restriction requirement, and are not presented in this application. New claims 37-61, the subject of this application, recite additional aspects of Applicants' invention and are presented herein for the Examiner's consideration. All claims presented in this application, claims 1-22 and new claims 37-61, are fully supported by application Serial No. 07/773,236 from which this application claims priority. No new matter is added to this application by the clarifying amendments to the specification presented herein, or by new claims 37-61.

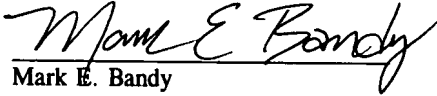

Respectfully submitted,

RAJ K. AGRAWAL, NIALL R. LYNAM,
JAMES K. GALER
